

All the italicized words below are disguised in a code. The word “*HECUTDR*” is a code for the real word “**THRONES**”. The “*D*” in the code takes the place of “**E**” in the real word and so on for the rest of the letters. Then every “*D*” in any coded word will be replaced by an “**E**” in the real words. This helps give you clues to solve each word. All of the real words will answer the following question:

WHAT ARE THE NINE CHOIRS OF ANGELS?

S E R H O N O N S
R D C X B E L S J U S L T L U T R

H E R R T E S
